The prettiest woman in Washington is clerk in the Patent Office. Her father was once a wealthy New Jersey manufacturer, but he f-iled, and four years ago died penniless. His daughter succeeded in getting a department elerkship, and has been the support of her old mother and a younger sister. She is a remarkably beautiful woman, a tall brunette with the imperious grace of a Diana.

The Piedmont Cattle and Stock Company, of which Wel's H. Bates is President, have deferred their proposition of taking the water from Martinez and Weaver creeks until later in the season when they intend to put in dams and pipes and pur chase 10,000 heifers, sufficient with the nerease therefrom to stock the plains between Wickenburg and Weaver. The two companies intend to expend a large amount of money in Yavapa: county.

Prof. Binke and sen, and DeWitt 3 Bates will arrive to-merrow. Palmer having gone to the railroad to bring them in. Prof. Blake will direct the work at Misnebalia fist where a saw-mill is to prepare timber and lumber for an 80 foot dam to be constructed for the Walnut Grove Water Storge Co. Prof. Biske's son will attend to surveying for ditch and Torpedoes, Same to Placer mines. DeWit C. Bates visits the country on other important mining business.

The Board of Supervisors had under consideration the taxation of the Sister's Hospital in Prescott. Lawyers Howard and Rush representing them, and L. F. Eggers the county. Arguments were made on both sides of pensiderable length and rather positive and determined. The position of the District Attorney was sustained by the Board, in that said Sisters' Hospital ts incorporated and its articles of incorpora tion are on record, not as a Sisters' Hospital and school, or a charitable institution, but simply a religious society, which is not, under the statute, exempt from taxation. The Board of Supervisors decided that they would be required to pay their taxes.

An electric wespon, a sword, has been invented at Shanghai, which, when the powerful shock Grough him, and if not Sazerac immediately billing, will put him hors du combat. The word is an ordinary military sabre, but along its whole length is let a fine platfoom wire which ends at the forl of the weapon. A small but very poworid storage battery is carried strepped about the waist, much the same as a cart ridge box Insulated wires connect the batters with the sword, and by pressing s botton she holder can complete the cirguit at pleasure.
